6.2.3.1 Description

Toll Personalized Area Calling (Toll-PAC) is a calling plan which allows a customer the option of placing toll calls to nearby communities within the LATA at a rate equal to a 15% discount over the rates for MTS that would otherwise apply to calls. A minimum charge applies each month which will be credited to the total discounted usage charges. All usage is billed with a thirty (30) second initial increment and in six (6) second increments thereafter.

6.2.3.2 Terms and Conditions

- a. The rates for Toll-PAC are determined by V and H mileage between rate centers within the LATA. Toll-PAC rates are applicable only on the route for which the service is purchased.
- b. Toll-PAC is available to business and residence customers when
